

**SAFRIG™
BY FLEXIGUARD™**

ANCHORED ABOVE. STABLE BELOW. SAFE IN-BETWEEN.

An industry that is constantly in motion, those in transportation know that accessibility is vital. The new SafRig™ by Flexiguard™ replaces the need for expensive, fixed overhead anchor systems and counterweights.

ATLANTIC
FALL PROTECTION

Does not require the weight of a vehicle as the anchoring force, allowing tremendous flexibility in positioning SafRig virtually anywhere around the vehicle

Smaller frame allows trucks to be parked side-by-side during use

DBI
SALA®

SAFRIG™ SET-UP OPTIONS

SAFRIG SYSTEM WITH OUTRIGGER BASE

Drive-over design allows for close positioning of the offset arm to vehicle(s)

8530607

SafRig with Outrigger Base
